Screen Door Measuring Sheet

Screen Door Width Opening Size

Measure width from **A to A**. Measure the top, middle and bottom of the Door Frame in between the Brick Mold. Use the smallest dimension.

A. _____ inches

Screen Door Height Opening Size

Measure height from **B to B**. Measure the left and right side of the Door Frame Header Height and Threshold. Use the smallest dimension.

B. _____ inches

Note: It is recommended that photos of all doors that are measured are attached with your order.

NOTE: Flat surface areas of 1" deep and 1" wide are needed to properly install the screen door onto the brick mold (or door frame).
